The guide is a living document, so it changes over time. When it changes, we generally don't change previously published documentation to match. We strive for consistency when feasible, but our style guide will not always match other parts of our documentation. When in doubt, follow the guide rather than imitating existing, potentially outdated ...

Tutorial pages are exactly like guide pages. The only difference is that they reside in content/tutorial instead of content/guide and have URLs like tutorial/{page-name}.. API pages are generated from Angular source code into the src/generated/docs/api directory. The doc viewer translates URLs that begin api/ into requests for document JSON files in that directory.
