### Learning Theory | Encyclopedia.com

Cognitivism has given rise to many evidence based education theories, including cognitive load theory, schema theory and dual coding theory as well as being the basis for retrieval practice. In cognitivism theory, learning occurs when the student reorganises information, either by finding new explanations or adapting old ones.

### 15 Learning Theories In Education (A Complete Summary)

Philosophy of education, philosophical reflection on the nature, aims, and problems of education. The philosophy of education is Janus-faced, looking both inward to the parent discipline of philosophy and outward to educational practice. (In this respect it is like other areas of "applied" philosophy, such as the philosophy of law, the philosophy of science, and the philosophy of medicine ...

### Philosophy of education | History, Problems, Issues ...

Pedagogy, study of teaching methods, including the aims of education and the ways in which such goals may be achieved. The field relies heavily on educational psychology, which encompasses scientific theories of learning, and to some extent on the philosophy of education, which considers the aims and value of education from a philosophical perspective.

LEARNING THEORY: A HISTORY Even before psychology became an experimental science in the 1890s, learning was an important part of it. But there came a time in the 1910s when psychologists started to become fascinated by learning concepts and learning theories. The 1930s and 1940s are sometimes called the golden age of learning theory; that was when learning was the heart and soul of psychology.

**Philosophy of Education (Stanford Encyclopedia of Philosophy)**

Attribution theory is concerned with the perceived causes of success and failure. It is one of the most prominent theories of motivation in the field of education research. The starting point for the theory is an outcome perceived as a success or failure and the search to determine why that outcome occurred. Ability and effort are among the most prominent perceived causes of success and failure.
