But my favorite mode of display is the exploded view, used for the most powerful Porsche engine ever—the 12-cylinder racing engine. Its parts, though suspended manually, seem to hover in air. Porsche's engine put me in mind of another "exploded diagram" I had seen recently, this one at the Harley-Davidson Museum, in Milwaukee.

An exploded view drawing is a diagram, picture, schematic or technical drawing of an object, that shows the relationship or order of assembly of various parts. It shows the components of an object slightly separated by distance, or suspended in surrounding space in the case of a three-dimensional exploded diagram. An object is represented as if there had been a small controlled explosion emanating from the middle of the object,
