LNG BUNKER WEEKLY: Japan conducts first ship-to-ship ...

LNG Vessel Bunkering. LNG Bunkering is the practice of providing liquefied natural gas fuel to a ship for its own consumption. The key advantage of LNG as a fuel is the vast reduction in pollutant caused by the more traditional method of fuelling ships such as heavy fuel oil, marine diesel fuel (MDO) and marine gas oil (MGO). Environmental regulatory pressure is building to cut emissions caused through ship transportation.
